

ONEIDA

Innovative designs. A renowned brand. Unequaled heritage.

Oneida has been gracing tables for over 100 years and are pleased to announce the launch of two new cutlery patterns that deserve their place in the finest restaurants. The stylish new designs Energy and Mezzo are crafted from high quality 18/10 stainless steel and are ideal to enhance the dining experience in any establishment.

Whether you are a restaurant serving haute cuisine or hotel catering for conferences, Oneida's striking new designs will add a touch of elegance and real point of difference to your table. Both patterns are ergonomically balanced for maximum comfort and thanks to the high quality stainless steel will retain their brilliant, polished finish throughout their lifetime, service after service.

Why not see for yourself the smooth contemporary perfection of Energy and the sleek, modern looks of Mezzo. Each piece is produced to exacting high standards, with guaranteed quality and durability that is durable enough to cope with the demands of professional food service usage. For more information please contact your local Oneida representative for a sample and quote.
